DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, are drawn to process of purification of nona- or a decapeptide.

Group II, claim 10 is drawn to mono acetate of LHRH peptide.

Inventions listed as groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature in all group is mono acetate of LHRH peptide . This element cannot be a special technical feature under PCT Rule 13.2 because it known in the prior art. The reference WO 00/18423 teaches the pharmaceutical composition for the oral administration of mono acetate of LHRH peptide (claim 9, page 26, lines 15-21).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
